

Vengeance Falls Full Bio

The band Vengeance Falls is an alternative/hard rock band from Barbados who have become synonymous for holding high energy shows.

The band was formed in 2014 from the remnants of former band Standing Penance, which comprised Tearhead on rhythm and lead vocal, Lexx on drums, Valkyrie on bass and a lead guitarist.

When the lead guitarist left, Valkyrie took over the role of lead and the band recruited Rave to fill the position of bass. The three core members have been together for eight years and form a tight unit, with Rave fitting seamlessly into the band. When Valkyrie sustained an injury at work, the band drafted new lead guitarist Feedback to fill the position.

Rave then temporarily left to go on sabbatical later in the year and Valkyrie returned to fill in as bassist.

With Rave back, the band has recruited new lead guitarist JC. Backed by Wasteland Records, they have played hotel gigs, weddings and clubs. They have played every arena, pasture and backyard jam there is in Barbados and joke they have played to “crickets and cockroaches”.

They have become a weekend fixture at a local microbrewery. The band is, however, forced to travel outside their native Barbados to find appreciation for their genre of music, as the majority of Barbados music fans prefer calypso or reggae to rock.

As a result, they have become a fixture on the Trinidad alternative/hard rock scene playing shows and festivals there. They completed their last tour to Trinidad in August 2019. The band has also been crowned Rock Artist of the Year for 2019 and again for 2022 by the Gine On?! People's Choice Awards. The band has two albums under their belt, with the latest released in May 2023.
